A Brief History of Catholic Books

Dear Friends of PCP,

Twenty years ago it was said that 98% of the world's books were out of print. In the last two decades – with the development of books-on-demand technology, and with the equivalent of whole libraries being posted on the Internet – many books that were once difficult to find can now be located very easily.

While we consider the significance of such technological developments, our Catholic Faith prompts us to remember that when God became man, not even the printing press existed. Our Lord Himself never wrote a book, but instead He left it to His Church to give us the various books of the New Testament. There was a reason why Our Lord did not write, and that reason was explained in detail by St. Thomas Aquinas in the thirteenth century. As shown in our "ebook" *The Thirteenth: Greatest of Centuries*, St. Thomas, although he lived before the development of modern technology, was nevertheless a part of that age which laid the foundations for modern scientific and technological developments.

St. Thomas explained that Our Lord Himself, because He was the greatest of all teachers, used the spoken rather than the written word

Psalm 2:7: “*The Lord hath said to me: Thou art my Son, this day have I begotten thee.*”
“*Here is the beginning and the foundation of God’s decree. For to Christ, as being the true and natural Son of God, is due all power in heaven and on earth. Three generations are here alluded to. The first, when in the day of eternity, I God begot you God. The second, when, on the day of your birth, I begot thee according to the flesh, made you God-Man, without the seed of man, your mother remaining inviolate, without the stain of sin. Thirdly, I begot you today, that is, on the day of your resurrection, when, by my divine power, I restored you to life, and that a glorious and immortal one.*”

The Psalms of the Old Testament constitute the most important Old Testament book, insofar as the Church has made them a part of her prayer, the Divine Office, recited or chanted by clergy and religious, as well as using them in the propers of the Mass, prayers at the foot of the altar, etc. In the early centuries many of the laity knew the Psalms by heart, and during the Middle Ages laymen oftentimes continued to pray the Psalms in the Little Office of the Blessed Virgin, one of the most widely read books during that era. Because the Psalms are filled with prophecies about the Messias, His Passion and Death, foreshadowed in the sufferings of King David, they nourish the spiritual lives of Catholics, who are called to share in the sufferings of Our Lord as members of His Mystical Body. Thirteenth as the Greatest of Centuries, it has seemed worth while in this edition then to premise a series of quotations from some of the most distinguished historical writers in English of our own time which amply justify the claim here set up. Frederic Harrison, Macaulay, Freeman, and Fiske are sufficiently different in themselves to make their agreement in supreme admiration for the Thirteenth Century very striking. In spite of their lack of sympathy with many things in the period, all of them emphatically declare that it is the source of most that is great and good since, and that while we have added details, we have failed to surpass its artistic and intellectual achievement in all the 700 years that have elapsed.” August 15, 1912

Thirteenth Greatest of Centuries

The accomplishments of this *Greatest of Centuries* were remarkable. Walsh breaks the details down into clear digestible and fascinating segments. Make you own bookmarks so you always come back to where you left off. You won’t want to miss any of this. Over a hundred illustrations punctuate this marvelous book. We think TGOC is an ebook that every traditional Catholic with a computer should own, and eventually read. If they can’t read it right away, they should have it at least as a reference work for themselves and their children.

“Many of the now rather numerous readers and hearers of this book, for it has been read in the refectories of over 200 religious communities, have said that the title seemed almost deterring at first because of the high claim that is set up for a medieval century. To mitigate the possible initial deterrent effect of the paradox of the most distinguished historical writers in English of our own time which amply justify the claim here set up. Frederic Harrison, Macaulay, Freeman, and Fiske are sufficiently different in themselves to make their agreement in supreme admiration for the Thirteenth Century very striking. In spite of their lack of sympathy with many things in the period, all of them emphatically declare that it is the source of most that is great and good since, and that while we have added details, we have failed to surpass its artistic and intellectual achievement in all the 700 years that have elapsed.” August 15, 1912

WHAT ARE ELECTRONIC BOOKS?

An electronic book is the content of a paper book that can be read by electronic devices such as computers, Kindles, iPads, cell phones and similar devices. Electronic books (eBooks) come in a variety of formats, each having advantages for certain devices. PCP uses the PDF format, which many devices can read and is commonly used on PC’s and Mac’s. Images and special formatting are often part of PCP books and only PDF files currently provide for our requirements. eBooks in PDF form allow many useful features that are not possible with a paper book or other electronic formats. All PC’s and Mac’s can easily read PDF files. All you need do is download (from our web site to your PC) after you have the Adobe Reader (free) and then you can read all PDF files. PDF files do not need an internet connection from your PC or other device.

YOU KNOW AND LOVE PAPER BOOKS. WHY MIGHT YOU WANT AN eBook?

Easily Increase Text Size: Do you use reading glasses? You won’t need them. You can easily adjust the type so you can read it. **Find Text/Search Features:** Easily find all occurrences of certain texts throughout a document (e.g., find all occurrences of “Abraham” in the Old Testament). **Highlight and Add Notes:** With the latest Adobe Reader X it is easy to highlight text, just as you might with a yellow highlighter for text books. You can also add balloon notes anywhere in the text. **Active Links: Like hyperlinks when using the internet.** Click on text in the table of contents to jump to that section. Link to associated content and video on the web ONLY if you wish. Add your own links! **Print What You Need:** Print key pages of interest (e.g. Baptismal prayers or chant). **Read Aloud:** Most computers have electronic voices as part of their operating systems (like Windows, Mac OS etc.). PC and other devices use this voice to read a book to you if you are interested.

IT HELPS PCP

EBOOKS ARE ALSO A STEPPING-STONE TO PAPER REPRINTS for Preserving Christian Publications. It is expensive to print hardcover books in quantity, eBooks give us a tangible way to assess interest in a book before we make a large financial commitment to reprint it. **LIVING UP TO OUR NAME AT PRESERVING CHRISTIAN PUBLICATIONS**, we have thousands of Catholic books, many long out of print. Putting these treasures into eBook form will preserve them even if we are not in a position to make printed versions of them in the near future. (If you are interested in helping with this effort please call us with a donation or donate on the website.)

QUALITY

Some consider any scanned book turned into a PDF an eBook. However, funny characters may appear in the text, or poor text flow, pictures deleted or of low quality, no proofreading, poor scan quality and no integration of the most useful interactive features. At PCP, all our books are character based and preserve original text styles (italics, bold etc) and will have convenient-to-read fonts and format. At least three people review and proof each book before it goes out. We still make occasional mistakes, but we have taken enormous efforts to ensure near perfect correspondence to the original text (for example, we do not change British spellings). We only correct spelling and obvious grammatical errors to deliver the message without distraction. You have our pledge that we will *never* make content changes. Interactive elements will be few and only used if they add to the traditionally held message. Never frills for technology’s sake. We think eBooks will enhance paper books and allow God’s message to be distributed in a form and at a price that should allow more people to receive the message. We realize they are not for everyone. To keep the price down, we deliver ebooks electronically only from the website.

The Admirable Heart of Mary

St. John Eudes, Apostle of Jesus and Mary, reveals to his disciples how Our Lady’s heart was the first-fruit of Her Divine Son’s Passion, given to all of Mary’s children, that it might be honored, cherished, invoked and, ultimately, with that of her Son, reproduced in them. This is the essence of St. John Eudes’ spirituality which spilled over into the foundation of many religious congregations, literary works and of course, the practice of heroic virtue while on earth. This spiritual doctrine, which ultimately contributes to the Triumph of the Immaculate Heart of Mary and of Her Divine Son, Jesus Christ, is very pertinent for our time.

The Truth of Papal Claims

“ . . . Pius X, assisted by the great soul of his most faithful Secretary of State, Cardinal Merry del Val, gave proof of that enlightened prudence of the saints . . . ” – **Pope Pius XII**

“*The Truth of Papal Claims*, by Raphael Cardinal Merry del Val, which Preserving Christian Publications has recently reprinted . . . is a worthy edition of an important Catholic work.” – **Raymond Leo Cardinal Burke**

October 2012 is the beginning of what Pope Benedict XVI has proclaimed will be a Year of Faith, but a true understanding of the Faith rests upon a correct understanding of the nature of the Church. In a world in which the Faith is increasingly called into question, Rafael Cardinal Merry del Val’s book *The Truth of Papal Claims* provides a simple explanation of the foundation of the Catholic Faith. It is one hundred and ten years since this book was first published, but now fifty years after the opening of the Second Vatican Council the nature of the Church has become a subject of uncertainty and debate among Catholics. In the thirteenth century St. Thomas Aquinas, while describing the Church as the Mystical Body, explained its nature in various ways. All members of the human race on earth belong to the Mystical Body *potentially*, he wrote, but not *actually*, for those who are not members of the Church merely have the capacity to become members. In the broadest meaning of the Mystical Body, all the saints of the Old and New Testaments belong to the Church Triumphant in heaven, even though the patriarchs of the Old Testament lived before Our Lord founded His Church on the Apostle St. Peter.

In the centuries after St. Thomas a new problem arose, when the Protestants preached an *invisible* Church of saints in opposition to the *visible* Catholic Church on earth. The Anglican form of this teaching was the “branch theory,” which made Catholics, the Orthodox and the Anglicans all different “branches” of the invisible Church taught by Protestantism. Cardinal Merry del Val shows in his book that the only true “branch” theory is that of the Gospel of St. John 15:6. There is only one Vine, and branches must be united to this one Vine to have life. If there is confusion about the nature of the Church after the Second Vatican Council, Catholics must apply Pope Benedict XVI’s hermeneutics of continuity by turning to the teaching of prior popes such as Leo XIII and Pius XII, who taught how the only living vine is the Mystical Body which is the Catholic Church, the Soul of which is the Third Person of the Blessed Trinity. A half century after the start of the Council and the resulting ecumenism, we must always remember that the Catholic Church alone is the one true Church of Our Lord Jesus Christ.

The Great Commentary of Cornelius a Lapide

The Commentary on the Gospels in Four Volumes

Hardcover – regular price: \$175.

Autumn Sale Now Only: \$150.

Father Cornelius a Lapide (Cornelis Cornelissen van den Steen), a Flemish Jesuit, was born in 1567, and died in Rome in 1637. Soon after being ordained to the priesthood on December 24, 1595, he became a professor of Sacred Scripture at Louvain. It was twenty years later that he was called to Rome, where he continued to teach Sacred Scripture. As a zealous priest and devout religious he left to the world a complete commentary on all the books of the Bible with the exception of the Psalms and the book of Job, with the result that he has become one of the most renowned Catholic Scripture commentators of modern times, winning the admiration of certain Protestants even while they disagreed with his doctrine.

Among those non-Catholic admirers was an Anglican clergyman, Rev. Thomas W. Moseman, who in the late nineteenth century translated several books of Father Cornelius a Lapide's commentary on the New Testament, including the Four Gospels. In the 1990s Preserving Christian Publications began work on the publication of a new edition. In early 2001 we hired a translator to provide an English translation from the Latin of parts of the text that the Anglican clergyman had left out. Another publisher with whom we began working a short time later proceeded with publishing the commentary without first obtaining a contract with Preserving Christian Publications, but recently we were able to obtain a limited quantity of sets printed four years ago, which we now make available at a pre-Christmas sale price. Makes a great gift.
